01 / PROFILE

Full-stack developer building production web products, internal platforms, and AI-driven business workflows. I own the full lifecycle from requirements discovery, relational data modeling, and typed APIs to responsive interfaces, background queues, automated tests, and deployment. Day to day I pair architectural ownership and strict verification with AI-assisted development (Claude Code, Codex, ChatGPT).

02 / PRODUCTION EXPERIENCE

KazEcoFood — Full-Stack & Automation Engineer (Sole Developer)

Current Role · Almaty / Hybrid · github.com/h1ziix/KazFoodV2

Architected and shipped an internal workplace-assessment platform from scratch, centralizing organization data, measurements, and regulated DOCX package generation across 13 protocol types.

- Owned product requirements, UX, Next.js/TypeScript frontend, Supabase/PostgreSQL data model, authentication, and deployment.
- Engineered cross-document synchronization so shared workplace fields and measurements stay consistent across 13 regulated protocols.
- Built resilient autosave, save-conflict handling, Supabase Row-Level Security (RLS), Zod validation, and batch DOCX export.
- Covered complex regulatory calculation rules with 70+ automated Vitest tests, increasing daily team output 4–8×.

100–200	~2,000	13	70+
docs/day throughput (was 20–25)	employees covered in production	regulated protocol types in sync	automated Vitest business tests

03 / SELECTED ENGINEERING PROJECTS

Agentic Ops — AI Sales Operations

TypeScript · Next.js · Supabase · PostgreSQL · Gemini · Tavily · Trigger.dev · Zod

Turns a sales goal into cited company research, lead qualification, and outreach drafts. Typed orchestrator persists workflow state between agent steps in PostgreSQL. Enforces human-in-the-loop safety: operator approval freezes the exact message revision and recipient before a separate deterministic execution step runs.

Live Demo ↗ GitHub Source ↗ Engineering Case Study ↗

LeadPilot AI — CRM Intake & AI Triage

TypeScript · Next.js · PostgreSQL · Prisma · Gemini · Bitrix24 · Zod · n8n

Connects incoming sales requests to Bitrix24 contacts and deals, runs evidence-checked Gemini opportunity analysis with deterministic priority scoring, and records local manager decisions. Uses durable operation UUIDs and recovery markers in PostgreSQL to reconcile interrupted CRM writes without duplicating records.

Engineering Case Study & Video Trailer ↗

ATU Campus — University Learning Platform

TypeScript · Next.js PWA · NestJS · Python · PostgreSQL · Prisma · Redis · BullMQ · Docker

Role-based academic workspace (Russian & Kazakh) for schedules, versioned materials, private assignment submissions, grading, attendance, and chat. Backed by an OpenAPI-typed NestJS backend, course-scoped RBAC, S3 storage, and Redis/BullMQ queues coordinating an isolated Python PDF/Office parser.

Engineering Case Study & Walkthrough ↗

StratWeb — CS2 Match Analytics Engine

Python · FastAPI · JavaScript · DuckDB · Polars · Docker · pytest

Offline analytics engine that parses Counter-Strike 2 `.dem` replay files into a versioned DuckDB/Polars dataset, reconstructs round timelines with a 2D map viewer, detects repeatable cross-match player habits with round-level citations, and exports PDF/JSON scouting reports.

CampusForge	AI study workspace for documents, notes & concise/expanded summaries (Next.js, TypeScript, Prisma, PostgreSQL, Playwright, Docker).
Commercial Web	**XEAL** (relate-xeal.webflow.io — responsive product site & integrations) · **I Like & Yogurt** (React business web app with schedule logic).

04 / TECHNICAL STACK

LANGUAGES & PRODUCT INTERFACES
TypeScript · JavaScript · Python · SQL · React · Next.js · Tailwind CSS · Responsive PWA

BACKEND & DATA ARCHITECTURE
Node.js · NestJS · FastAPI · PostgreSQL · Prisma · Supabase (RLS) · DuckDB · Polars · REST / OpenAPI

AI, AGENTS & AUTOMATION
Gemini API · OpenAI API · Tavily · Zod · Agent Orchestration · Bitrix24 API · n8n · DOCX Generation

INFRASTRUCTURE, QUEUES & QUALITY
Docker · Redis · BullMQ · Trigger.dev · S3 · Git · Vitest · Playwright · pytest · Claude Code / Codex
